

# Room 4

## ROOM 4's PLANT STUDY

We have been learning about plants and seeds. We planted our bean seeds in yoghurt containers. We used seed growing soil and we had to water them. We put them in the sun to keep warm. The root grows first and it grows down. The shoot grows next and it grows up. Then the shoot grows leaves and it is called a seedling. Then we took them out to the 'Treemendous Garden' and planted the seedlings. They are growing tall and we are looking after them.

## KAPAI'S JOURNEY

Whaea Moe has been reading 'Kapai' stories to us every day. We have been finding the place in New Zealand that Kapai has been and marking it with a sticker.

Whaea Moe is a teacher from the Wanganga and she has been working in our class for 6 weeks this term. She helped us to make a 'Class Treaty'. We all made our hands with our names to sign the 'Treaty'. We have agreed to show RESPECT, LISTEN and THINK so we can all learn in Room 4.
